Claims 1-4 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following appear to lack sufficient antecedent basis (in the claim): "the package" (claims 1, 4), "the tape" (claims 2, 3, 4), "the roll" (claim 2) .

The following are not clear: "without unpacking the roll" (claims 1, 4)(for example, if the package is sealed, it is not clear how the tape can be dispensed).

All claims should be revised carefully to correct all other deficiencies similar to the ones noted above.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Offray (US 3327846).

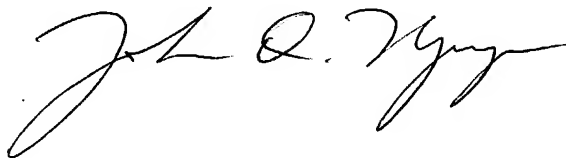

Claim 3 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Frechette (US 4408913). Note tensioning system including element 25.

Claims 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Riemenschneider (US 4706442). Note at least figure 7 and tensioning system including element 348.
